9. Develop an Android application using controls like Button, TextView, EditText for designing a calculator having basic functionality like Addition, Subtraction, multiplication, and Division.

```
© MainActivity.java ×
1 package com.example.calculator;
2 import android.os.Bundle;
3 import android.view.View;
4 import android.widget.EditText;
5 import android.widget.TextView;
6 import androidx.appcompat.app.AppCompatActivity;
7 public class MainActivity extends AppCompatActivity {
8     EditText num1, num2;
9     TextView result;
10    @Override
11    protected void onCreate(Bundle savedInstanceState) {
12        super.onCreate(savedInstanceState);
13        setContentView(R.layout.activity_main);
14        num1 = findViewById(R.id.num1);
15        num2 = findViewById(R.id.num2);
16        result = findViewById(R.id.result);
17    }
18    public void add(View v) {
19        double a = Double.parseDouble(num1.getText().toString());
20        double b = Double.parseDouble(num2.getText().toString());
21        result.setText("Result: " + (a + b));
22    }
23    public void subtract(View v) {
24        double a = Double.parseDouble(num1.getText().toString());
25        double b = Double.parseDouble(num2.getText().toString());
26        result.setText("Result: " + (a - b));
```

```
© MainActivity.java  AndroidManifest.xml ×
1  <?xml version="1.0" encoding="utf-8"?>
2  <manifest xmlns:android="http://schemas.android.com/apk/res/android"
3      xmlns:tools="http://schemas.android.com/tools">
4
5      <application
6          android:allowBackup="true"
7          android:dataExtractionRules="@xml/data_extraction_rules"
8          android:fullBackupContent="@xml/backup_rules"
9          android:icon="@mipmap/ic_launcher"
10         android:label="Calculator"
11         android:roundIcon="@mipmap/ic_launcher_round"
12         android:supportsRtl="true"
13         android:theme="@style/Theme.Calculator">
14         <activity
15             android:name=".MainActivity"
16             android:exported="true">
17             <intent-filter>
18                 <action android:name="android.intent.action.MAIN" />
19
20                 <category android:name="android.intent.category.LAUNCHER" />
21             </intent-filter>
22         </activity>
23     </application>
24
25 </manifest>
```

OUTPUT:
